HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

There has been a sudden outbreak of erysipelas among hogs in the Zagreb area. Large numbers of hogs have been killed in an effort to halt the spread of the disease. At least two cases of erysipelas in humans have been traced to meat from the diseased hogs, and the health authorities in Croatia have issued strict orders concerning the preparation of meat from hogs that have suffered from the disease.
